Profile

BCA Graduate with a strong foundation in HTML, CSS, and JavaScript, along with beginner-level experience in MERN stack technologies. Passionate about creating clean, responsive, and user-friendly web applications. Highly motivated to learn, improve, and apply full-stack development skills to real-world projects while adapting to new tools and technologies.

Projects

Resume Builder Web App ⧉
Developed a web application using React.js with live preview, multiple customizable templates, and PDF download functionality. Built a secure backend with Node.js, Express, and MongoDB (Mongoose)

Personal Portfolio Website ⧉
Designed and developed a fully responsive personal portfolio to showcase projects, skills, and contact details. Integrated clean UI design principles and optimized for mobile devices.

CRUD App ⧉
Built a full-stack web app with Create, Read, Update, and Delete operations using MongoDB, Express.js, React, and Node.js with a responsive design.

X-Clone (Twitter Clone) ⧉
Created a social media platform clone with user authentication, posting, liking, and commenting features using MERN stack.
